

TARGET SETTING WORKSHOP #3

Marine and Nearshore Species and Habitats

Date: Tuesday, April 18, 2011; 9:30a-4:30p

Location: Olympia, WA

Please note that the location is tentative; a location will be finalized based on the number of RSVPs received: Please RSVP to Kathleen Igros at kathleen.igros@psp.wa.gov

Objectives

- Reach a common understanding of the technical information considered and process used to develop draft targets, and the target options
- Receive input to guide refinement of target options
- Receive input on where it makes sense to aim for a recommended option (i.e., how ambitious should any given target be)
- Track any ideas for strategies and actions needed to make progress towards targets

9:30-9:40	Opening and Introductions (10 minutes)
9:40-10:00	Overview of Target Setting and Context for Today's Discussions (20 minutes) (Scott Redman) <ul style="list-style-type: none">• Target setting work to date: who, how, what• Full suite of targets and role of targets in guiding and measuring recovery• Role of this Workshop and the May Workshops• Eelgrass target, adopted February 2011• Questions/answers
10:00-10:30	Estuaries and Other Nearshore Systems and Shoreline Armoring: Overview (30 minutes) (Jason Mulvihill-Kuntz, Morgan Schneider, and Randy Carman) <ul style="list-style-type: none">• Technical information considered• Draft options for targets
10:30-10:40	Break (10 minutes)
10:40-11:45	Discussion: Estuaries and Other Nearshore Systems, Shoreline Armoring, and Other Shoreline Alteration (65 minutes) <ul style="list-style-type: none">• Clarifying questions and comments• For the pressure reduction targets, are we tracking the right things in light of the technical information? Are these the things that will really tell us if we are on the road to recovery and making progress? If not, why not? What would work better?• For the dashboard target, are we looking at the right dimensions of the shoreline armoring and alteration picture?• Are we ambitious enough? Too ambitious? Which option seems to strike the right balance?• Are there other options that should be considered?

Target Setting Workshop #3, April 19, 2011

Marine and Nearshore Species and Habitats, continued

- Other comments
- 11:45-12:00 Recreational Fishing Permits: Overview (15 minutes) (Eric Kraig)**
- Technical information considered
 - Draft options for a target
- 12:00-12:35 Lunch Break (35 minutes)**
- ***Lunch will be provided in the room at a cost to participants; participants are asked to bring cash or a check. Lunch is estimated to be \$10/person, but the amount will be updated when logistics are finalized.***
- 12:35-1:05 Discussion: Recreational Fishing Permits (30 minutes)**
- Clarifying questions and comments
 - Are we focused on the right aspects of the recreational fishing permit picture?
 - Are we ambitious enough? Too ambitious? Which option seems to strike the right balance?
 - Are there other options that should be considered?
 - Other comments
- 1:05-1:20 Orcas: Overview (15 minutes) (Scott Redman on behalf of Ken Balcomb)**
- Technical information considered
 - Draft targets
- 1:20-1:50 Discussion: Orcas (30 minutes)**
- Clarifying questions and comments
 - Are we focused on the right aspects of the picture for orcas?
 - Are we ambitious enough? Too ambitious? Which option seems to strike the right balance?
 - Are there other options that should be considered?
 - Other comments
- 1:50-2:05 Pacific Herring: Overview (15 minutes) (Kurt Stick)**
- Technical information considered
 - Draft options for the target
- 2:05-2:15 Break (10 minutes)**
- 2:15-2:45 Discussion: Pacific Herring (30 minutes)**
- Clarifying questions and comments
 - Are we focused on the right dimensions of the picture for pacific herring?
 - Are we ambitious enough? Too ambitious? Which option seems to strike the right balance?
 - Are there other options that should be considered?
 - Other comments
- 2:45-3:00 Birds: Overview (15 minutes) (Scott Pearson)**
- Technical information considered
 - Draft options for the target

Target Setting Workshop #3, April 19, 2011

Marine and Nearshore Species and Habitats, continued

- 3:00-3:30 Discussion: Birds (30 minutes)**
- Clarifying questions and comments
 - Are we focused on the right dimensions of the picture for birds?
 - Are we ambitious enough? Too ambitious? Which option seems to strike the right balance?
 - Are there other options that should be considered?
 - Other comments
- 3:30-4:15 Review package of targets, fill gaps, come back to any nagging issues (45 minutes)**
- Taken as a whole, do these targets work together?
 - Review parking lot of strategy and action ideas; anything to add?
 - Other observations on the day
- 4:15-4:25 Overview of on-line engagement opportunity (10 minutes)**
- 4:25-4:30 Wrap-up and Next Steps (5 minutes)**
- 4:30 Adjourn**
